

Nectarines

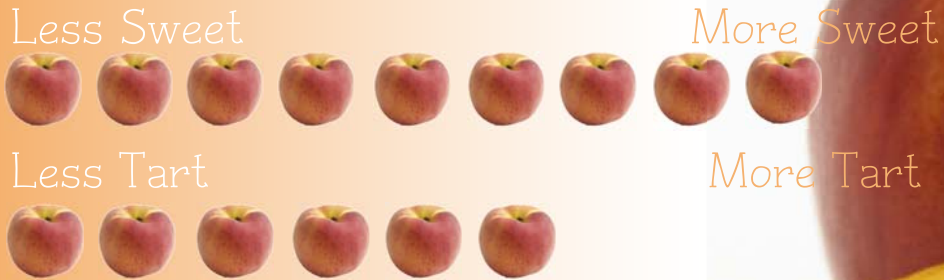

Flavor Profile

HIMIC

Peach . Nectarine . Black Plum . Red Plum . Yellow Plum . Starless Ruby . Pluot . White Peach . White Nectarine

Nectarines are known to have slight sour zing at the beginning of each bite, followed by a sweet and juicy center. The skin of the nectarine smooth with a faint rubbery texture, in that it is very firm, with a little give. As with a peach, nectarines will continue to soften each day they are left at room temperature.
